To get a list of the members of a specific mailing list:

- Login on the mail server.
- Get root.
- Commands are in /usr/lib/mailman/bin
- e.g.

```
[root@mail ~]# /usr/lib/mailman/bin/list_members crbs-holly
```

To remove a member from all lists:

- Login on the mail server.
- Get root.
- Commands are in /usr/lib/mailman/bin
- e.g.

```
[root@mail ~]# /usr/lib/mailman/bin/remove_members --fromall username
```

To get a list of members on a list you are a member of via the web

- [https://mail.ncmir.ucsd.edu/mailman/listinfo/<your mailing list name>] i.e. crbs-ah
  - It should look like this: https://mail.ncmir.ucsd.edu/mailman/listinfo/crbs-ah
  - Scroll to the bottom where it will say in bold: CRBS-AH Subscribers
  - Type in your email address associated with this list and your password and click: Visit Subscriber List

To administrate a mailing list,

- goto: https://mail.ncmir.ucsd.edu/mailman/admin/<your mailing list name>

If your credentials are correct you will now be viewing all of the users that are subscribed to your list. If you do not gain access, make sure all of your info is correct. Thank you.

Here is another way each user can manage their own subscriptions via the web.

- Go to an email sent to you via the mailing list, scroll to the bottom of that email and click the link. The link will redirect you.
• You can then set a password, reset a password, change delivery options, and request a list of subscribers.
