General Mercurial (aka hg) Info

Mercurial Guide

**Acquiring an Account**

HG uses crowd credentials, to get an account go to the CRBS Account Request Page. Ensure you check the HG box as a resource you need access too.

**Browsing HG**

To view what files are on HG, goto [https://hg.crbs.ucsd.edu/PATH](https://hg.crbs.ucsd.edu/PATH)

**Creating new HG modules**

Developers: Put in a ticket requesting a new module.  
SysOPS: As root on mercurial server, run

```bash
cd /var/HGROOT  
hg init <reponame>  
chown -R apache:apache <reponame>
```

Reconfigure puppet/trunk/puppet/modules/p_crbs/files/vhost-mercurial.conf

Add the following:

```plaintext
<Location /<reponame>>  
  Require group <crowd-group1> <crowd-group2>
</Location>
```
